MUHAMMED NABEEL C

PRODUCT ENGINEER | FULL-STACK DEVELOPER

+91 7558963319 | Palakkad, Kerala | muhammednabeelc05@gmail.com | LinkedIn | Github | Portfolio

PROFILE SUMMARY

Product Engineer specializing in JavaScript/TypeScript, microservices, and scalable full-stack systems. Experienced in building enterprise SaaS products, modular architectures, and AI-powered solutions. Skilled in end-to-end product development, system design, cloud deployments, and leading engineering delivery.

EXPERIENCE

Product Engineer *August 2025 - Present*
Yanthralabs *Chennai, India*

- Built core features for eCare, an enterprise HIMS platform, including billing, pharmacy, inventory, and reporting.
- Engineered a modular microservices architecture enabling independent deployment and flexible, client-specific module configuration.
- Developed complex business workflows spanning hospital operations, billing, pharmacy, and inventory management.
- Built scalable backend services and integrations supporting multi-hospital deployments and diverse operational requirements.
- Led the eCare engineering team, contributing to architecture, feature delivery, production releases, and deployments.

Software Engineer (Freelance) *May 2025 - August 2025*
Self-Employed *Remote, India*

- Built a multi-tenant QR restaurant ordering platform with dynamic subdomains.
- Developed scalable APIs, tenant-aware architecture, real-time orders, and AWS infrastructure.
- Built travel agency websites, booking platforms, and admin dashboards for managing tours, content, and reviews.

MERN Stack Developer *June 2024 - April 2025*
Finanshels *Kozhikode, India*

- Developed core Product and SSO features using Next.js, React.js, NestJS, and microservices.
- Built internal tools and LLM-powered automations for onboarding, compliance, workflows, storage, and ticketing.
- Built a unified communication platform integrating WhatsApp, Slack, and Gmail.
- Led development of an AI-powered bookkeeping system, reducing manual accounting effort.
- Contributed to CI/CD and deployment pipelines for scalable product delivery.

SKILLS

Programming Languages: JavaScript, TypeScript
Back End Development: Node.js, Express.js, Nest.js, Microservices, gRPC, Kafka, Redis, Firebase
Front End Development: Next.js, React.js, Redux, Zustand, WebRTC, WebSocket, Tailwind CSS, HTML, CSS
Database Management: MongoDB, PostgreSQL, MySQL
DevOps: Docker, Kubernetes, Git, Github, AWS (EC2, ECS, S3, SQS, Amplify), AKS (Azure Kubernetes Service)
Tools & AI: VS Code, Cursor, Postman, Jira, Figma, Vercel, Netlify, Cloudflare, Claude, OpenAI, Gemini
Familiar With: Python, Java, Rust, Supabase, Upstash, Neon, Clerk

PROJECTS

Personal Projects: Live Link

- Zakaa – Scalable LMS with live sessions, exams, HLS streaming, microservices, and Kafka-based communication
- Bytez – E-commerce platform with Razorpay, wallet system, dynamic offers, and admin dashboard
- Hyva – Real-time collaborative IDE with multi-language support and live sync
- Mini Projects – Built various individual frontend and backend projects for learning and experimentation
- NPM Packages – Published multiple utility packages

ACHIEVEMENTS

Brocode 2.0 – Learning Club Challenge Winner 2022**:** Certificate Link
Best Performer of the Month – July 2024**:** Certificate Link

EDUCATION

Bachelor of Computer Application 2024 - 27
Indira Gandhi Open University (Incomplete)

Full Stack Development 2022 - 23
Brototype, Calicut
